Summary

Hi, I am Anastasia, Software Engineer from Kyiv with commercial experience in JS/React development. As my current project has been finished, I am now looking for new challenges in Frontend. Well familiar with responsive design best practices and have knowledge in popular dev tools and frameworks (Next, React, Redux, also Angular basics). Friendly and positive, easy to get along with.

Skills

- ✓ HTML5, CSS3, Sass (SCSS)
- ✓ BEM methodology, classnames, countries-cities, country-telephone-data, formik
- ✓ JavaScript, jQuery, React, Redux, Lodash, Next.js, Typescript, GraphQL
- ✓ Test jest
- ✓ Saga, fetch, axios requests
- ✓ Bootstrap, styled-components, material-ui
- ✓ Git, Gulp, Npm, Webpack, Yarn, Matlab, GitLab, Jira, XML, SQL
- ✓ Photoshop, Linux

Experience

Frontend Developer, Axels, Dec 2019 - present

Project: Davinchi Design (graphics and photos editor)

Tech stack: React, Lodash, jQuery, Backbone, Redux

My responsibilities: Logic buttons restore, fixing bugs related to malfunction, implementing XML Formatter, creating an XML format for code, responsive design creating, coverage by basic tests.

Project: S-pro (social network for doctors and patients)

Tech stack: Next.js, Formik, React, Redux, Yup, Saga, Express, Typescript

I worked on localization, connect translation, fetching saga requests from the server, developing 2-steps authorization to the site, adding logic to pagination, custom components(button, checkbox, input, dropdown, modal, switch, radio button), adding particleSlider, google Map and calendar integration, works with environment variables, merging any conflicts, add jest setup and tests.

Education

Kyiv National Technical University of Ukraine

“Igor Sikorsky Kyiv Polytechnic Institute”

Department of Non-Destructive Testing Instruments and Systems, PSNK

Bachelor Degree
